EVERYONE FOR VETERANS

Everyone For Veterans, everyoneforveterans.org, is a non-profit organization in Washington that has mapped out a unique and effective way of improving the lives of combat veterans around the country with dental care.

Everyone For Veterans (E4V) will screen the veterans for low-income financial status and deployment status. Then, they will connect the veteran to a volunteer dentist in their community who will provide

dental health in the comfort of his/her office. This model has worked very well due to the generosity of dentists in the country who want to give back to these combat veterans.

Some Arizona dentists are already participating in the program. However, presently, we have many qualified combat veterans in Arizona waiting for volunteer dentists, especially in the Phoenix, Yuma, Mesa areas. Sign up at everyoneforveterans.org/for-dentists.html
